

## Benefits of Breakfast

Eating breakfast can help improve math, reading, and standardized test scores..

Children who eat breakfast are more likely to behave better in school and get along with their peers than those who do not..

Breakfast helps children pay attention, perform problem-solving tasks, and improves memory.

Children who eat school breakfast are likely to have fewer absences and incidents of tardiness than those who do not.

By eating breakfast, students get more of important nutrients, vitamins and minerals such as calcium, dietary fiber, folate and protein..

Studies have shown that children who eat breakfast on a regular basis are less likely to be overweight.

Eating breakfast as a child is important for establishing healthy habits for later in life.

What you eat for breakfast can have an impact on learning. One study showed that eating breakfast food high in fiber and low in sugar for breakfast helped students sustain the cognitive effects of breakfast..

School Breakfast provides  $\frac{1}{4}$  the recommended amounts of protein, calcium, iron, vitamin A, and vitamin C for the day.

**We offer daily breakfast in the cafeteria 7-7:25 am or a grab & go option until 7:30 to bring to the classroom.**

**Kindergartners receive one free breakfast daily either in the cafeteria during breakfast hours or a cold breakfast we bring to the classroom at 9:30 am.**
